‘Our Wider World’

DT: Exploring moving parts and levers. Researching, designing, testing and evaluating the process of creating a moving part or lever.

Geography: Learning the 7 continents and 5 oceans of the world. The children will be identifying similarities and differences between the UK and Kenya.

History: How has transport changed? The children will be exploring the world of transport and learning how it was in the past and what it has changed into now. We will also be looking at a significant individuals in the transport world– George Stevenson. It is a local study as we find out about the previous railway in Ashwater.

Science: Identifying the different seasons and learning all about plants. Growing, labelling the different parts , the lifecycle of a plant as well as investigating conditions for growth.

P.E: We are going swimming. Development of functional skills, will continue, with application in cricket and rounders.

R.E: Exploring different beliefs and finding out about different faith communities.

Art: Learning about printing and tie dying, we will also be finding out about artists Cas Holmes, Richard Tuttle. In class, we will be making our own prints and textiles using a variety of techniques.

PHSE: Growing and changing, also valuing difference.
