Statistics with Reasoning

Nursery 3 and 4 Year Olds	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		INTERPRETING, CONSTRUCTING AND PRESENTING DATA					
			interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tables	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret information in tables, including timetables	interpret and construct pie charts and line graphs and use these to solve problems
			ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity				
			ask and answer questions about totalling and comparing categorical data				
			True or false? (Looking at a simple pictogram) "More people travel to work in a car than on a bicycle". **Is this true or false?**	**True or false?** (Looking at a bar chart) "Twice as many people like strawberry than lime". **Is this true or false?**	**True or false?** (Looking at a graph showing how the class sunflower is growing over time) "Our sunflower grew the fastest in July".	**True or false?** (Looking at a train time table) "If I want to get to Exeter by 4 o'clock this afternoon, I will need to get to Taunton station before	**True or false?** (Looking at a pie chart) "More than twice the number of people say their favourite type of T.V. programme is soaps than any other"

Statistics with Reasoning

			Convince me. Make up you own 'true/false' statement about the pictogram **What's the same, what's different?** Pupils identify similarities and differences between different representations and explain them to each other	**Convince me.** Make up your own 'true/false' statement about the bar chart. **What's the same, what's different?** Pupils identify similarities and differences between different representations and explain them to each other	**Is this true or false? Convince me.** Make up your own 'true/false' statement about the graph. **What's the same, what's different?** Pupils identify similarities and differences between different representations and explain them to each other	midday". **Is this true or false? Convince me.** Make up your own 'true/false' statement about a journey using the timetable. **What's the same, what's different?** Pupils identify similarities and differences between different representations and explain them to each other	**Is this true or false? Convince me.** Make up your own 'true/false' statement about the pie chart. **What's the same, what's different?** Pupils identify similarities and differences between different representations and explain them to each other
			SOLVING PROBLEMS				
				solve one-step and two-step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.	solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.	solve comparison, sum and difference problems using information presented in a line graph	calculate and interpret the mean as an average
